Great. Are you going to be available this afternoon around 3:00 to touch base? I could give you a call then.

I just registered. Thank you for the invite. Wish I could see you at the conference and I hope things are going well. Let me know when we can catch up concerning Wichita and the progress toward the final RFI review including the RA comments and so forth.

Marty-

Attached is information about a training for applying the Lean process to RCRA Corrective Action. I know we have discussed using this process for remedy selection at the Clean Harbors Wichita site, so I wanted to make you aware of this training for EPA, States, Facilities and their consultants.

Unfortunately, I have a conflict and will not be able to attend this training event; however, if you are interested, please register or let me know if you have any questions.

Attendance at this meeting is not required for us to apply the Lean concept to the Wichita site.

Subject: Registration Open for the July 22nd All States Meeting/FIRST Toolbox Training

We will be hosting the Region 7 RCRA Corrective Action All States Meeting on Wednesday, July 22nd in the Regional Office – conference room 1.C-F20. We will provide training on the Facility Investigation Remedy Selection Track (FIRST) Toolbox. This event will bring together Corrective Action Project Managers from EPA Region 7 and our State Partners. We are also encouraging our Corrective Action facilities and their consultants to participate. Please extend this invitation to your EPA lead corrective action projects that have not yet achieved remedy construction by forwarding this email to both facility representatives and consultants.

We are requesting that everyone register for the event – please use the following link –

<http://www.trainex.org/Reg7CAASM>

The attached flyer provides more details. A detailed agenda will be emailed out as we get closer to July 22nd. Please contact me if you have any questions.

Thanks,
